

Origin list: Europe

The following list contains plants from Europe

Botanica obtains the Europe plants from long-term suppliers from different countries. The plants are harvested either from cultivation or in the wild.

Botanica processes the corresponding plants into extracts which are available in different carrier substances (water-soluble, oil-soluble etc.) – see extract finder. These extracts can be used for cosmetic and technical purposes.

Botanica neither performs nor commissions tests on animals. Our raw materials are natural and can vary slightly from harvest to harvest without affecting the quality of the product. Further information can be found in the corresponding specification.

Please note that certain plants are not available all year round. Please ask us about the availability.

This list is not exhaustive and only represents some of the plants we process. If you are looking for other specific extracts to use in your formulation, we look forward to hearing from you.

Europe (different countries)

English	Deutsch	Français	Latin	Bio
Almond Flower	Mandelblüten	Fleur d'Amandier	Prunus Dulcis	Bio
Black Currant	Johannisbeere schwarz	Cassis	Ribes Nigrum	Bio
