BECAUSE IT'S ABOUT

PROTECTION

GutCare® V improves gut health and much more.

- Reduces the threat from pathogen-induced deseases
- Targeted support for optimal digestive function
- Helps maintain performance and increase profitability

GutCare® V

Sciencing the global food challenge™

GutCare® V
PROBIOTIC FEED ADDITIVE

PRODUCT SPECIFICATION
GutCare® V - 1 gram contains
Bacillus subtilis DSM 32315
min. 1 x 10^{10} CFU

Key benefits

Easy handling at feed mills and farms.

Helps reduce the risk of Necrotic Enteritis

Improves gut protection against pathogens

Improves margin over the feed cost

Direction of use

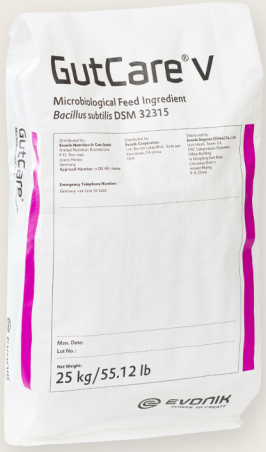

Broilers, Breeders, and Layers

Add min. 100 g per metric ton of feed.

Mode of action

1. Inhibits the growth of pathogenic bacteria especially *Clostridium perfringens*
2. Strengthens the intestinal lining to improve overall gut health.
3. Produces lactic acid which favors beneficial bacteria.
4. Produces antimicrobial metabolites.
5. Competitive adherence to the intestinal mucosa, reducing the growth of pathogens.

Packaging

25 kg bag

Key properties

Resistant to temperatures up to 85 °C for 1 minute

Completely free of genes associated with AMR (anti-microbial resistance)

Compatible with coccidiostats.
