

# Topic list: Fairtrade

## The following list contains fairtrade plants

Fair trade essentially aims for a fairer distribution of income from global trade relationships. The working and living conditions in economically disadvantaged regions significantly improve through market access. Fair trade promotes sustainable development through its activities. This means that it supports social justice, economic development, environmental protection, and the preservation of cultural diversity.

Botanica processes the corresponding plants into extracts which are available in different carrier substances (water-soluble, oil-soluble etc.) - see extract finder. These extracts can be used for cosmetic and technical purposes.

Botanica neither performs nor commissions tests on animals. Our raw materials are natural and can vary slightly from harvest to harvest without affecting the quality of the product. Further information can be found in the corresponding specification.

Please note that some plants are not available all year round. Please ask us about the availability. This list is not exhaustive and represents only a part of our plants. If you are looking for specific extracts for your formulation, we are looking forward to your contact.

English	Deutsch	Français	Latin	Bio
<b>Banana</b>	Banane	Banane	Musa Paradisiaca	Bio
<b>Black Tea</b>	Schwarzer Tee	Thé noir	Camellia Sinensis	Bio
<b>Cinnamon</b>	Zimt	Cannelle Ceylon	Cinnamomum Verum	Bio
